About the Journal

Catalogue of Social Sciences Research (CSSR) is a peer reviewed quarterly publication of Research Alliance of Social Science Academics (RASSA), a study cluster at Nnamdi Azikiwe University, Awka, Anambra State, Nigeria. The journal serves as a compendium of contemporary works on issues that bother social scientists in Nigeria and beyond. Relying on systematic frameworks for analysis of human behaviour, actions, and social practices at local, regional and global contexts, studies domiciled in the journal principally dissect how individuals, groups and institutions affect and interact with each other in societies. Above all, CSSR seeks to adequately interrogate social problems with a view to providing robust templates for improved societal well-being.
